DISPLAY YOUR BRAND ANYWHERE

Spanning across INDOOR AND OUTDOOR products, it's simply about choosing from over 200 display solutions to suit any environment or requirement.

WHY DISPLAY?

Our display solutions provide the perfect platform to advertise your brand anywhere you choose, allowing you to generate brand awareness and market your products or services to a wide audience with ease. Display products are easy-to-assemble and transport, allowing you to instantly transform any space into a branded space.

Whether you are a newcomer trying to gain much needed brand exposure or a well-established franchise, we understand the need to make the most of your marketing budget. With the high quality, reusable nature of our display products, you can be assured of an excellent return on investment.

When choosing the ideal display solution for your business it's important to consider the environment in which you would like to predominantly use your display. For easy reference, we've classified our displays into the following categories and ranges, based on their recommended application.

INDOOR DISPLAYS

Designed for environments with low exposure to the elements, these displays are portable, lightweight, easy-to-assemble and ideal for promoting your brand in retail outlets, office parks, reception areas, forecourts and at trade shows, conferences or events.

OUTDOOR DISPLAYS

Ideal for outdoor environments these durable displays are equipped to withstand the elements. Our innovative designs will allow you to conveniently assemble, dismantle and store your display for any event. This range is suitable for brand launches, markets, sporting events, marathons, schools, festivals, golf days and so much more.

All of our displays are manufactured to the highest standards and our scientific approach ensures quality and consistency throughout. The following ranges are available and have been ranked based on their construction, hardware, materials and design features.

UNDERSTANDING OUR RANGES

CHAMPION RANGE

Whether you are looking for high volumes or cost-effective display solutions - this lightweight, entry level range offers exceptional value without compromising on quality.

LEGEND RANGE

For increased durability, this range is constructed from slightly heavier weight materials and is impeccably finished for a more upmarket environment.

OVATION RANGE

This range is defined by its premium quality construction and durability, for those looking for a luxurious, high-end product.

DIGITAL BRANDING

Our range of digital branding solutions, quick turnaround times, vast capacity and in-depth understanding of the complexity associated with branding displays - will ensure a world-class experience from start to finish.

HOW DOES IT WORK?

Our process utilises a specific set of digital ink technologies and state-of-the-art mechanical processes to digitally print on the carefully selected fabric and PVC substrates used in our displays. This process produces vibrant, photo-realistic results – ideal for sharp details and full colour artwork.

WHAT INKS ARE USED?

DYE SUBLIMATION INK

This process uses heat to transform the water based dye sublimation ink into a gaseous state which allows it to infuse with the substrate fibres – producing vivid results.

NEW LATEX GEN-4 INK

Our new state-of-the-art Latex Gen-4 inks, boast the widest colour gamut on the market. This allows us to print the widest range of colours within the colour spectrum and produce the most vibrant and vivid print results. Versatile in its application, this process produces low VOC emissions and offers exceptional resistance against the elements. Extremely durable and UV stable, this ink is waterproof, non-absorbent and has a high scratch resistance.

SUBSTRATES "SKINS"

The term describes the base material onto which your artwork is printed. We've specially selected the substrates for our range of displays to give you the best possible printing solution and create the perfect skin for your display.

BLOCKOUT PVC

A lightweight and resilient substrate with 100% opacity, which doesn't allow light to filter through the display – predominantly used for our A-Frame displays, ensuring maximum visibility indoors and outdoors.

LAYFLAT PVC

A durable and lightweight substrate with anti-curl properties – predominantly used for our X-Banners and Pull Up Banners, allowing you to easily roll-up and store your artwork for your next event.

SPANDEX

Our 240gsm Spandex Polyester is ideal due to its 4-way stretch properties and vibrant colour produced in the Sublimation print process. This fabric allows for a tought fit when tensioned over a trestle table, and is used for our Spandex slip over table cloths.

DISPLAY POLYESTER FABRIC

Our 230gsm Knit Polyester is ideal due to its stability during the printing process. This fabric is also crease-resistant, allowing you to easily assemble, dismantle, transport and store your display. For products that we offer with this type of fabric, you can look out for some of our Bannerwalls, Pop-Up Banners, A-Frame Banners and Table Cloths.

WARP KNIT POLYESTER

Our specially selected Polyester Warp Knit Fabric is used for our flying banners and flags due to the stability of the fabric during the printing process. This allows us to control the print gain, ensuring a high quality, sharp print.

PRINT-GUARD POLYESTER

Our premium 250gsm Print-Guard Polyester has a unique coating, which has been developed to prime the surface, assist with print adhesion, and retain flexibility – ideal for long term UV exposure.

GAZEBO DISPLAY FABRIC

240gsm Gazebo Polyester Fabric is ideal due to its stability during the direct print process. This fabric also has a 600D water head, water resistant coating and is used for our sublimated printing process option on the following displays; Gazebos, Pull-Up Banners, Parasols and X-Banners.

RESKINNING

This innovative and cost-effective solution offers a fantastic ROI for your business. Reskinning allows you to reuse your existing display hardware and order a new skin to refresh your branding when it's old and outdated or as often as you like for seasonal promotions, product launches or limited offers – the possibilities are infinite.

Please note all reskinning is specifically tailored to fit this range of hardware. It is your responsibility to ensure you are ordering the correct skin for the correct hardware. We do not guarantee fitment to 3rd party hardware.

NEW FADE RESISTANT DISPLAY RANGE

BUILT TO LAST & IDEAL FOR LONG-TERM SUN EXPOSURE

	FADE RESISTANT	VS	SUBLIMATED
INKS	 New Latex Gen-4 Ink Widest colour gamut available on the market, producing vibrant and vivid print results Superior print fade stability 		 Water Based Dye Sublimation Ink Standard inks that produce good, full-colour print results Standard print fade stability

BANNERS

X-BANNERS

Sporting a unique and funky design, our attention-grabbing X-Banners are the most cost-effective mobile display solution for any brand. Their compact and lightweight design makes them extremely easy-to-assemble and dismantle.

The skins are available in Layflat Display PVC or Polyester Gazebo Display Fabric, which easily attach to the frame and store very well – making this range ideal for interchangeable artwork.

PULL UP BANNERS

Advertising your brand, products or services has never been easier! This range is compact, lightweight and durable, allowing setup within minutes. When all is said and done, the artwork simply retracts into the protective base and fits into a convenient carry bag.

Our Pull Up Banners are available in the following ranges:

CHAMPION RANGE

An entry level option, offering great value without compromising on quality.

Our middle of the range offering, with a slim design and chromed end caps for an upmarket and refined finish.

Defined by premium quality construction and durability, at an extremely competitive price point.

SUBLIMATED A-FRAME BANNERS

Ideal for indoor or outdoor use, our A-Frames are manufactured with a sturdy aluminium frame, which is lightweight and easy-to-assemble. The skins easily attach to the frame with Velcro straps making this solution ideal for interchangeable artwork.

This display can be purchased with your choice of Blockout PVC Skins or Polyester Display Fabric Skins depending on your requirements.

BLOCKOUT PVC

A lightweight and resilient substrate with 100% opacity, which prevents light from filtering through the display – ensuring maximum visibility indoors and outdoors.

POLYESTER DISPLAY FABRIC

A lightweight, crease-resistant fabric that can be washed in cold water and easily stored – recommended for indoor use.

FADE RESISTANT A-FRAME BANNERS

Our Fade Resistant Displays are printed with state-of-the-art Latex Gen-4 inks, boasting the widest colour gamut on the market.

This allows us to print the widest range of colours within the colour spectrum and produce the most vibrant and vivid print results.

The inks have a low environmental impact, are UV stable and scratch resistant, providing great durability for long-term outdoor exposure.

Premium polyester fabric with a unique print-guard coating is used for all of our Fade Resistant A-Frame Banners

FLYING BANNERS

Available in a variety of shapes and sizes, this diverse range has been designed to withstand the elements while offering high-impact visibility for your brand.

Our entire range of Arcfin, Sharkfin and Telescopic Flying Banners include a ground spike and convenient carry bag. These displays are predominantly used outdoors, however can be converted into indoor displays with our range of optional extras.

SINGLE-SIDED FLYING BANNERS

Only sold in pairs - this option offers exceptional value at an extremely competitive price point.

DOUBLE-SIDED FLYING BANNERS

Two skins are tailored back-to-back with blockout material in between to offer a perfect double-sided visual.

SUBLIMATED GAZEBOS

Gazebos are suitable for brand activations, product launches, markets, sporting events, marathons, schools, festivals, golf days and so much more.

All of our Gazebos fall within the Ovation family - defined by premium quality construction and durability, at an extremely competitive price point.

Available in a range of popular sizes our standard Gazebos include the following components:

1 x durable and lightweight aluminium frame
 1 x water-resistant polyester roof
 1 x polyester carry bag for portability and convenient storage.

CUSTOMISE YOUR GAZEBO

Half and Full Wall Skins are available for all of the Gazebos in this range - allowing you to customise and configure your Gazebo to suit your requirements and maximise your brand exposure. The wall skins easily attach to the structure, making this display solution ideal for interchangeable artwork - offering a great ROI for your business.

The wall skins are branded on one side only, using our state-of-the-art sublimation branding process to produce vibrant results.

FADE RESISTANT GAZEBOS

Our Fade Resistant Displays are printed with state-of-the-art Latex Gen-4 inks, boasting the widest colour gamut on the market.

This allows us to print the widest range of colours within the colour spectrum and produce the most vibrant and vivid print results.

The inks have a low environmental impact, are UV stable and scratch resistant, providing great durability for long-term outdoor exposure.

Premium polyester fabric with a unique print-guard coating is used for all of our Fade Resistant Gazebos.
